PROFESSIONAL SUMMARY

Full Stack Developer with **2+ years** of experience in designing and developing high-performance web applications. Passionate about developing **efficient solutions, optimizing performance, and delivering seamless user experiences**. Proven ability to **lead teams, manage clients, and deliver enterprise-grade applications.**

TECHNICAL SKILLS

Languages: JavaScript, Java
Technologies: Angular, Node JS, Mongo DB, SQL, Mongoose, Express, Bootstrap, Rxjs, React etc
Developer Tools: Git, Visual Studio Code, IntelliJ Idea etc

EXPERIENCE

Full Stack Developer
June 2023 – Present

Codeship private limited — *Chennai, Tamil Nadu, India*

- **Led** a team of **5+ developers**, mentoring **7+ interns** and conducting **50+ technical interviews**.
- **Designed and developed** scalable web applications, optimizing **API requests, page performance etc**, with aggregations, transactions, and other techniques.
- **Managed client interactions**, represented the team in **professional meetings** as tech representative, and handled **18+ client projects** with full ownership, seamless communication and timely delivery.
- **Deployed and maintained** applications on AWS EC2, ensuring scalability and performance.
- **Scaled** applications to support a user base of over **25K+** with constant website traffic, ensuring performance and reliability.

Frontend Developer Intern
Feb 2023 – June 2023

Codeship private limited — *Chennai, Tamil Nadu, India*

- **Collaborated on** fully responsive web pages using HTML, CSS, and Bootstrap/Tailwind for efficient styling and layout.
- **Built** dynamic Angular applications, integrating modern UI libraries like NgBootstrap, PrimeNG, and NG-Zorro.
- **Optimized** frontend performance by upgrading Angular projects to the latest versions and ensuring seamless API integration with backend teams.

PROJECTS (VIEW ALL)

Xity | *Angular, Node JS, MongoDB, Express* — xity.in
- **Engineered** a location-based business platform with a frontend, admin panel, and backend, enabling business owners to list services and users to discover them via pincode-based search.
- **Built** REST APIs with MongoDB aggregations to handle complex logic and added server-side pagination in tables using Angular DataTables and Mongoose queries.
- **Styled** the platform using Angular Material, Bootstrap, and a pre-installed theme for a seamless UI/UX.

Danalaxmi Matrimony Group | *Angular, Node JS, MongoDB, Express* — danalaxmimatrimonygroup.com
- **Developed** a caste-based matrimonial platform serving **20K+ users**, with features like profile likes, contact viewing, and server-side pagination using Angular Material and Mongoose queries.
- **Implemented** bulk profile downloads with advanced filters, generating a **single PDF** for all profiles and a **ZIP of JPEGs**, including concurrent profile uploads to Amazon S3, reducing upload time by **120%**. for efficient storage and retrieval.

Aquatik Angels | *Angular, Node JS, MongoDB, Express, Fabric JS* — aquatikangels.com
- **Architected** a scalable e-commerce platform for aquatic products, handling **1K+ products** and **5K+ monthly transactions**, with optimized performance using aggregations, transactions, WebP, and server-side pagination.
- **Devised** an interactive aqua-scaping module with Fabric.js and Canvas, enabling **1K+ users** to design custom aquariums with drag-and-drop elements like plants, materials, and backgrounds.

EDUCATION

KCG College of Technology
Chennai, Tamil Nadu, India

BE CSE — *Aug. 2019 – Aug 2023*
